## HOBBIES

I play football for Trinity's Collegiate team in Ireland's top college division.

I also play Gaelic football for my local team.

I am also a member of Trinity's Computer Science society, DUCSS and enjoy attending their events.

## PROFILE

I am a final year computer science student in Trinity College Dublin. I am currently on track to graduate with a distinction (1.1) in my degree and have thoroughly enjoyed every moment of it. I have great problem solving skills and work very well under pressure. I have experience working with numerous technologies both academically and professionally including a cloud computing internship in Zurich Insurance plc.

## EMPLOYMENT HISTORY

### WEB DEVELOPMENT as a Freelancer

May 2018 – Present

- Actively engage with clients using upwork and other freelancing sites.
- Identify the client's needs and discuss their brand's identity.
- Use the most applicable language/framework to build their site.
- Produce the client with a professional, functional & aesthetically pleasing website.

### PROGRAMMING TEACHING ASSISTANT - JAVA at Trinity College Dublin, Dublin, Ireland.

January 2020 – Present

This position was assigned to me based on my current grades (GPA). The role involved:

- Coaching groups of first year students in their learning of Java.
- Providing students with weekly goals based on their current progress and ability.
- Grading their programming projects weekly and providing constructive feedback.
- Supporting them with any issues that arise within their group or their program.

### CLOUD COMPUTING INTERN at Zurich Insurance Plc, Dublin

May 2019 – September 2019

- Worked as part of a large global team.
- Engaged in weekly meetings and updated coworkers on my progress and new ideas.
- Built, maintained, patched and logged all servers in Zurich's private cloud.
- Supported clients on any issues via email and calls.
- Helped team members with Azure and AWS tasks.

## EDUCATION

### Trinity College Dublin, Dublin

September 2017 – Present

Degree: Integrated Computer Science - Level 8

I currently have a 1.1 average and have completed modules in entrepreneurship, multiple programming languages and mathematics. I have completed presentations in front of hundreds of students and worked hard throughout.

## EXPERIENCE

### TCDexams.com, Website

September 2020 – Present

- Myself and a colleague are developing a website where Trinity students can access past exams easier as we found the current website outdated and difficult to use.

### Software Engineering Team Project, UI Web Design

January 2019 – May 2019

- A website which displays changes to the Wikidata API and flags suspicious edits along with providing a dashboard of useful graphics. Accepted into the Voila '20 academic conference.

### Software Engineering Team Project, Android App Dev

January 2019 – May 2019

- An Android app that periodically gathers information about nearby Bluetooth devices. I worked on the UI and helped with the use of the Bluetooth technology.

### Log On and Learn Mentor, Community Initiative

January 2016 – June 2016

- An initiative in my local school which taught older people how to use technology by assigning a mentor to help them over a 5 month period.
